M.O.T.I.O.N.S Membership Program

(Members Organizing to Innovate Our Networks)

Our Membership Program offers emerging Advocates, Leaders and Stakeholders the platform to join collectively as we bring awareness to the public and our community, build and develop new and innovative ideas, form collaborative partnerships and provide a safe space to address the injustices and discrimination that formerly incarcerated people face after release from prison, jail or rehabilitation. We will organize as a collective to approach and dismantle the criminal legal system, by enacting a transformative outreach approach through capacity building and strategic planning. We aim to change policies that will end homelessness, mass incarceration, criminalization of poverty and systemic barriers within the South. We boldly organize and commit to taking affirmative action against discriminatory practices and the array of challenges that have resulted from racial inequity.

From the Desk of our Founding Leader,

Shakiethia Wheeler,

Executive Director/ Subject Matter Expert
